

Dear Applicant:

Thank you for your interest in our Ph.D. program in Library and Information Studies. Enclosed are the appropriate application forms and other materials of interest to prospective doctoral students. Please see our website at: <http://www.slis.wisc.edu> for more information.

The Advanced Studies Committee requests a full statement of your reasons for seeking additional graduate study and a statement of your research interests. This statement should be included with the School of Library and Information Studies application and is carefully reviewed by each member of the Committee. The Committee may wish to arrange a personal interview with you in Madison at some later date. If this is not possible, other arrangements can be made to interview you at a professional meeting or to have someone interview you on behalf of the Committee.

Although financial aid for graduate study is limited, part-time employment opportunities are usually available. You are encouraged to make known your need for financial assistance. We can then consider you for available support and suggest contacts for you to make on an individual basis.

Please contact me if you have further questions.

Sincerely,

Barbara J. Arnold
Admissions and Placement Adviser
